As their treatment could not be done in public hospital, they were admitted to a clinic. Knowing that they were not well-off, I proposed my classmates to help them financially by raising funds. We immediately talked to our teacher about our plan. She agreed to help us and told us that with the pandemic, we would not be able to go from house-to-house to collect money and that it would be better to do it online by creating a GoFundMe me account. No sooner said than done, after one week, we were able to collect one hundred thousand rupees which was donated to my best friend's family. No need to tell you that we were proud of our deed.

Question 9

Tout se passe au début des vacances, le soleil est au rendez-vous et il fait extrêmement chaud. Mon frère, Lucas et moi décidons d'aller grimper la colline Candos qui se trouve non loin de chez nous. Arrivés au pied de la colline, nous commençons immédiatement l'ascension. En ce faisant, nous fredonnons des airs à la mode. Soudain, en regardant trop le paysage, Lucas trébuche sur un rocher et il tombe. J'essaie de l'aider mais il a la cheville foulée et ne peut plus marcher. Je n'ai d'autre choix que de le laisser pour aller chercher du secours. Heureusement que les secours arrivent très vite et font le nécessaire pour transporter Lucas à l'hôpital.
