Table of Contents

UNIT 1 : NUMBER SEQUENCES 1

General Sequences 1

The Fibonacci Sequence 3

UNIT 2 : INDICES 7

Negative Indices 7

Indices of the form $(ab)^n$ 10

Indices of the form $\left(\frac{a}{b}\right)^n$ 11

Fractional Indices 12

Square Numbers and Square Roots 14

Cubes and Cube Roots 17

Other Roots 20

Solving problems involving perfect squares and square roots 21

UNIT 3 : REAL NUMBERS 27

Natural Numbers, Whole Numbers and Integers 27

Set of Rational Numbers, $\mathbb{Q}$ 33

Finding a rational number between any two other rational numbers 36

Converting decimals to fractions and vice versa 43

Terminating and non-terminating decimals 45

Set of Irrational Numbers 48

Estimation 50

UNIT 4 : RATE AND PROPORTION 52

Rate 52

Compound Units and Conversion 54

Proportion 60

UNIT 5 : PERSONAL AND HOUSEHOLD FINANCE 68

Valued Added Tax (VAT) 68

Percentage Increase and Decrease 74

Percentage Profit and Loss 80

Discount 90

Commission 99

Simple Interest 102

UNIT 6 : COORDINATES 108
Plotting of Coordinates 108
Equation of Inclined Lines 110
Point of Intersection of Two Lines 115
UNIT 7 : PYTHAGORAS' THEOREM 118
The Right-Angle Triangle and the Hypotenuse side 118
The Pythagoras' Theorem 119
Applications of Pythagoras' Theorem 126
UNIT 8 : H.C.F OF ALGEBRAIC TERMS AND FACTORISATION OF ALGEBRAIC EXPRESSIONS 128
H.C.F of two or more numbers 128
H.C.F of Algebraic Terms 132
Factorisation of Algebraic Expressions 136
Compound Factors 139
UNIT 9 : L.C.M OF ALGEBRAIC TERMS AND ALGEBRAIC FRACTIONS 142
L.C.M of two or more numbers 142
L.C.M of Algebraic Terms 146
Algebraic Fractions 150
Addition and Subtraction of Algebraic Fractions with Numerical Denominators 152
Addition and Subtraction of Algebraic Fractions with Algebraic Denominators 153
Multiplication of Algebraic Fractions 158
Division of Algebraic Fractions 160
UNIT 10 : STATISTICS 161
Pie Chart 161
Mean, mode and Median 169
Harder Problems involving Mean and Mode 171
Word Problems involving Mean, Mode and Median 176
UNIT 11 : ALGEBRAIC EQUATIONS 179
Linear Equations 179
Solving Equations involving the Distributive Law 182
Solving Equations involving variables on both sides 185
Equations involving Cross-Multiplication 188
Equations involving L.C.M 194

UNIT 12 : INEQUALITIES 199
Case 1: Writing a mathematical inequality from a given sentence 199
Case 2: Working with Number Lines 201
Case 3: Solving Linear Inequalities 203
UNIT 13 : SURFACE AREA AND VOLUME 207
The Cube 207
The Cuboid 210
Fitting Cubes into Cube or Cuboid 214
UNIT 14 : CIRCLE 216
Identifying parts of a Circle 216
Formula connecting diameter and radius 218
Finding the Circumference of a circle using either the radius or the diameter 219
Finding the diameter of a circle given its Circumference 223
Finding the radius of a circle given its Circumference 223
Finding Area of Circle 224
Finding the radius of Circle when area is given 225
Finding the length of Arc 226
Finding the Perimeter of a Sector 229
Finding Area of Minor and Major Sectors 230
Finding Perimeter of Semicircle 232
Property of Chord 233
Harder Examples 236
UNIT 15 : POLYGONS 246
What is a Polygon? 246
Sum of Interior Angles of a Polygon with n sides 246
Find the size of one interior angle 250
Finding the sum of interior angles given number of sides and one interior angle 252
Finding the number of sides of a polygon given one interior angle 253
Exterior angles of a Polygon 255
Sum of Exterior Angles in a Polygon 257
Finding the size of one exterior angle 258
Finding the number of sides using one exterior angle 260
Harder Examples 261
UNIT 16 : SETS 265
Definition of a Set 265
Set Notations 265

Solving Problems using Venn diagram 265
Word Problems involving Sets 268
UNIT 17 : CONSTRUCTIONS OF TRIANGLE 276
Construction of an Equilateral Triangle 276
Construction of a triangle with three sides given 279
Construction of a triangle with one side and two angles given. 282
