◆ Question 9 (10 marks)

★ Model Composition (≈120 words – High Scoring)

While I was walking to my classroom one morning, I saw a teacher carrying many books. Suddenly, she slipped on the wet floor and fell heavily. I felt shocked and worried when I saw her lying on the ground. I quickly ran to help her and called other teachers for assistance. Some pupils brought water while another teacher contacted the office. The teacher had hurt her ankle and could not stand up properly. Soon, the school nurse arrived and took care of her. She was later taken to the hospital. Thankfully, she recovered after a few days. That day taught me the importance of helping others in need.

Question 9

Samedi soir, toute la famille est réunie dans le salon pour regarder un film. Soudain, il y a une panne d'électricité et la maison devient complètement sombre. Ma mère allume des bougies pendant que mon père cherche une lampe de poche. Au début, nous sommes un peu inquiets, mais ensuite nous décidons de jouer à des jeux de société. Nous rions et racontons des histoires amusantes. Finalement, la soirée devient très agréable malgré l'obscurité. Quand le courant

revient, nous sommes presque déçus ! Ce samedi reste un souvenir inoubliable pour moi.
